

The top puzzle is a KenKen, with the following solution:

3	5	1	6	4	2
5	2	6	4	3	1
4	1	5	3	2	6
6	4	2	1	5	3
1	3	4	2	6	5
2	6	3	5	1	4

The solution to the math puzzle:

$$\begin{array}{r}
 9\ 7\ 3\ 5\ 1\ 6 \\
 \text{E}\ \text{L}\ \text{D}\ \text{S}\ \text{A}\ \text{R} \\
 +\quad\quad 7\ 8\ 5\ 6\ 8 \\
 \hline
 \text{L}\ \text{H}\ \text{S}\ \text{R}\ \text{H} \\
 \hline
 1\ 0\ 5\ 2\ 0\ 8\ 4 \\
 \text{A}\ \text{T}\ \text{S}\ \text{I}\ \text{T}\ \text{H}\ \text{M}
 \end{array}$$

Find letters for the shaded squares in the KenKen using the math puzzle's letter-number mapping:

$$3-2-5-1-6-4 = \text{DISARM}$$
