

Dots Walkthrough

Each color in each line is a morse code letter. Put the dots and dashes of each color in order from left to right. Order each line left to right:

Red, orange, yellow, light green, dark green, light blue, dark blue, violet & pink.

Each line is one word.

The message is "Embedded answer dwells decode diametric word order edible numeral unmask aphorism."

Take the edible numeral, pi, and index the first 10 characters into the 10 words. For example, the first character of pi is 3. Index 3 into the first word, "embedded," to get "B."
