

# Webcomics - SOLUTION

## Step 1: Identify The Characters

First, you need to identify the 33 webcomic characters. Hopefully you'll recognize one or two of them – from there, you can solve the names of the rest as an ordinary cryptogram.

## Step 2: Read the Boxed Letters

One letter in each character's encoded name is boxed. When you decode and read those letters, you get the message: USE NAMES OF COMICS IGNORING ALL HUMANS

## Step 3: Identify the Webcomics

## Step 4: Read First Letters

The non-human characters in each set are bolded. Reading the first letters of their comics' names gets:

**Portland:** RIALTO POOLROOM

**Seattle:** THE WURST PLACE
