

Puzzled Pint

April 2018

Secret Keys

"I've solved it! I figured out the key we can use to start Pintcoin," said Bob. "Look:"

X	E					
X	E	H	B	E		E
R	G	T	T	T	H	X
L	E	T		T	H	E
R	E		B	E		L
I	G	H	T			

"That's no good," said Alice. "You can't just *drop a quote* in there and expect it to make a good key."

"Alright, what do you suggest then?" asked Bob.

"Well," explained Alice, "most accounts are *based on 16* key principles — but the most important is a super secure secret key. I'll bet if we can get that right, we can drop the other ones. What should our secret key be?"
