

1885: TRAIN RIDE TO THE FUTURE (SOLUTION)

PUZZLE BY: JIMMY W. -CHICAGO

The longest track is below. By following the track and reading the letters on the 'straightaways' (light gray letters) you get the message: "AT STATIONS LOOK LEFT".

Following the track again and reading the letters that would appear out the left windows as the train went through each station (dark gray letters), you get the final answer, "ENGINE".
