

“Don’t even get me started on how bad a name ‘half-gallon’ is,” Riley scoffs. “That’s like defining a woman based solely on who her husband is just because she’s his ‘better half.’ My new name will give this measurement some **direction**.”

1. The eight people include four men (Anderson, Benjamin, Chance, Damien), and four women (Eloise, Felicity, Gretchen, and Hannah).
2. Everyone in this group is married to one other person in this group, and every couple is sitting next to each other.
3. The eight people are Anderson, Eloise, Chance’s partner, Damien’s partner, Gretchen’s partner, Felicity’s partner, the person sitting at position 1, and the person sitting at position 3.
4. Each couple consists of two people with the same number of letters in their name.
5. Hannah’s partner is sitting in a prime numbered seat. (The primes at this table are 2, 3, 5, and 7.)
6. Chance’s partner is sitting next to Felicity’s partner.
7. Gretchen’s partner is sitting in either seat 4 or seat 6.
8. The eight people sitting at the table are:
  - The partner of the person sitting across from Gretchen
  - The partner of the person whose seat number is double Felicity’s
  - The person sitting across from Anderson’s partner
  - The person sitting across from Eloise’s partner
  - The person sitting in the direction of the answer
  - The person sitting to the left of Felicity’s partner
  - The person sitting two to the right from Gretchen
  - The person who is sitting to the left of a palindromic name
